

# ***Our Proven Process for a High Energy Event***

## **1. Listen**

We listen to you to determine what you want to accomplish with your event. We ask questions to find out what your goals are and what it will take to make your event the best one you have ever planned.

## **2. Present Our Suggestions**

We present our suggestions to meet all of your needs, through an agreement that defines your event. The agreement lays out the timeline, everything that is included and all costs associated with the event.

## **3. Agreement**

Once the details of the event are agreed upon a 50% deposit secures your time and location for your event. The deposit is made securely online when the agreement is signed.

## **4. Pre-Event Coordination**

We assign an Event Coordinator to assist with preparations for your event, this person will be your contact and liaison to ensure you are prepared to enjoy your event fully. They will confirm details of your event to be sure the location is prepared as well.

## **5. At Your Side for the Big Day**

The day of your event you will be greeted by your event captain, whose sole job it is to make you and your guests feel special and make your event the best ever.

## **6. High Energy Event Promise**

We promise that we will provide your group with a high energy event that your guests will be talking about for days.
